

Dear FCC

As an amateur radio licensee. I am against BPL because it will cause widespread interference to amateur radio frequencies, and preclude further changes in

the amateur HF allocations. The ARRL has concluded that based on "diligent and exhaustive research," BPL must avoid any and all amateur MF, HF, and VHF allocations without exception. This interference potential, as a matter of both law

(47 CFR 15.5) and fact disqualifies access BPL as a future competitive broadband delivery system.
